BUTWAL, RUPANDEHI

SUMMARY

Dedicated and curious Computer Science undergraduate with strong enthusiasm for building impactful digital solutions. Competent in full stack development and gamified web applications. Passionate about code, teamwork and intuitive user experience.

SKILLS & ABILITIES

Competent with JavaScript, React.js, Next.js, Node.js, MySQL, GitHub, and REST APIs, with a growing interest in full-stack development. Learning to build user-friendly applications with elements of gamification and functional code practices.

PROJECTS

Taskify

Developed a full-stack task management web app with Kanban boards and collaborative features. Real-time task assignment, chart tracking, and team-based workspaces.

Tech Stack: React JS, Next JS, Node JS, Express JS, MySQL, Kanban Board

Gamification in Quiz

Interactive quiz platform with XP levels, leaderboards and dashboards for students and teachers. User progress tracking and classroom-focused tools.

Tech Stack: Node JS, Express JS, MySQL, React JS, Next JS

EDUCATION

2022-Present   **B.Sc. In Computer Science**
Kathmandu University, Dhulikhel

ACTIVITIES

UI/UX Design Enthusiast   Proficient in Figma and wireframing intuitive interfaces. Interested in creating user-centered design for web and mobile apps.
